

# Annual Report prepared by the Advisory Panel on the Status and Needs of the Fire and Rescue Pension Fund

During this time on the agenda we will conduct a session to capture your thoughts and suggestions on the status and needs of the Fire and Rescue Pension Fund. Please use the material in this binder and the experiences from you and your department, if applicable, to come with ideas for sharing. Please break out your suggestions by “status” and “needs.” There are no bad ideas. Staff will capture everything, develop a report and hold a special meeting, via conference call, to review and approve the final report, which will be presented to the Local BOT meeting in July.
